DETAILED ACTION

In response to Applicant's amendment filed on August 20, 2004, the rejection made in the last Office action on the Campbell 1&2 references are withdrawn.

Reasons for allowance

The following is an examiner's statement of reasons for allowance:

The present invention is drawn to a digital control logic circuit utilizing a first time hysteresis unit, a second time hysteresis unit and an inverter recited in claims 1-5 and 8. None of the prior art disclosed or suggested to show the particular structure and/or the particular operation recited in these claims namely: **"the first time hysteresis unit having a characteristic of time hysteresis by latching an input signal for predetermined time of a first delay** when an input signal transits from a first level to a second level" and **"the second time hysteresis unit connected in series to the first time hysteresis unit having a characteristic of time hysteresis by latching the input signal for predetermined time of a second delay longer than the first delay** when the input signal transits from the second level to the first level" as recited in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to My-Trang N. Ton whose telephone number is 571-272-1754. The examiner can normally be reached on 7:00 a.m - 5:30 p.m.
